The Greehey Family Foundation

Bill Greehey established The Greehey Family Foundation in 2003 with a goal of broadening his ability to identify and meet the growing needs of the San Antonio community. The Foundation is committed to supporting health and human welfare issues, children's causes, education, and the homeless. And because the needs of the community are wide, the Foundation is set up and positioned to meet an almost unlimited range of needs within these areas. In its brief history, the Foundation has already granted tens-of-millions of dollars to hundreds of causes. For more information, visit www.greeheyfoundation.org.
