WORD FROM THE CHAIRMAN

On behalf of our membership and staff, we salute you for working to grow your business, employees and our vibrant community. Because of your membership and individual participation, the North Chamber is keeping San Antonio strong as we advocate for businesses large and small; provide exceptional business-to-business connections; recognize leaders at every age and career stage; and cultivate the workforce through leadership and professional development training.

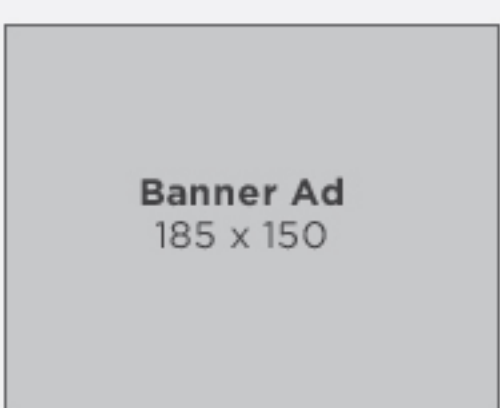

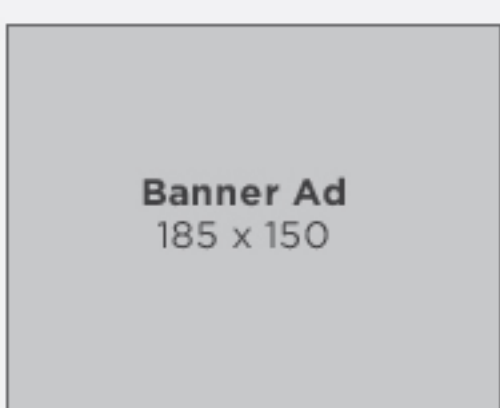

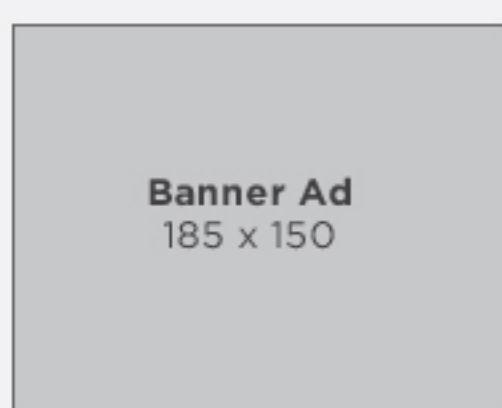

CONNECTIVITY & COMMUNICATIONS

We always say, "Participation is the key to maximizing your membership." While that's true, we want to help you amplify your involvement with increased visibility opportunities and enhance your membership experience with meaningful and convenient communication. Earlier this year, I challenged our leadership team to reimagine this Chamber's connectivity to the community. Already, we are exploring ways that we can engage more fully. You'll see we've hosted and planned events that address our members' increasing reliance on mobile computing devices, smartphones, and digital and social media, and now you can join the conversation in our communities on www.facebook.com/NorthSACHamber, Twitter @NorthSACHamber and LinkedIn. To lead this effort at the operational level, please join me in welcoming to the North Chamber staff a longtime member and volunteer, Renée Crittenden Garcia, as she assumes the new role of Vice President of Marketing & Business Development. Coupled with our efforts to improve connectivity, Renée will work with our Membership Council and Committee to revise and improve membership benefits to reflect the resources our members value most. Watch your in-box for your invitation to participate in various feedback forums.

ADVOCACY & THE 2012 BOND ELECTION

We're excited to welcome back County Judge Nelson Wolff, who will provide the Bexar Facts at the Annual State of the County Address on Thursday, May 18, at the Omni San Antonio Hotel. This will be an informative update as there are many new infrastructure projects that will impact our Chamber membership.
